# Indoor Activities @home

- **Baking together:** You will need to be prepared for a bit of mess, but toddlers seem to love mixing and sifting etc. It is great if you have a plastic mixing bowl and a few plastic cups that you can put the ingredients into so that your toddler can pour out each ingredient into the mixing bowl and mix with a big wooden spoon. Favourites are ginger-bread men, custard biscuits, peanut butter biscuits, cupcakes, crunchies, pancakes, cookies and muffins. Use **Golden Cloud biscuit mix** – fun and easy biscuit making.
- **Creative sandwiches:** Chop up colourful bits of whatever is in the fridge (like strawberries, cucumber, grated cheese, chopped ham, slices of Vienna are nice for circle shapes to make car wheels etc but you can use whatever you have). Use some food colouring and colour some margarine for fun. Use bread slices and play dough cutters to cut the slices of bread into fun shapes and decorate them by spreading blue margarine onto the bread and place the bits and bobs that I'd cut up onto the shapes. Make faces, cars, little men, a house... you can do anything.
- **Play dough** – making and playing with it!
- **Puzzles**
- **Dress-up** – keep a box of things – get family members to contribute to it!
- **TV/DVDs:** I know people have varying ideas of how much TV is suitable but I my daughter has LOVED and learnt so much from watching:
  - Barney (there are loads!) Good ones are: Let's go to the farm, The zoo, Land of Make believe, Teariffic manners, Night before Christmas, Round and Round we go, Moving and Grooving (a good music one).
  - All the Julie Andrews classics: Mary Poppins, Sound of Music etc.
  - The Book of Pooh (Manners is a good one – all about please and thank you)
  - Leapfrog make a brilliant Alphabet series: Leapfrog Letter Factory is the first one where they teach all the letter of the alphabet as characters in such a fun story. Bought it online – don't think you can get it from bookshops in SA.
  - Princess stories: like Cinderella, Snow White etc
  - Nemo – loves this! The shark was a bit scary at first but totally loves it now.
  - Happy feet
- **Finger painting at the dining room table** (This way you can strap toddlers in their booster seats to contain the mess 😊). You will need a small pallet of water paints, a small dish of water, some newspaper and computer paper folded into cards. You could do the same hand and finger painting on a roll of brown paper too. Once you finished you can peg it up on your washing line or on a trellis door to dry.
- **Throwing streamers** – good excuse to learn colours

# Indoor Activities @home continued...

- **Make tents** with blankets and chairs etc... loads of fun for little imaginations and they can play safely on their own. Great for a rainy day. Put cushions inside and a tea set. Invite your teddies and have a snack/tea party in your house (great way to get them to eat when you are struggling!). My boys love choosing other things to put into their house e.g. books or some flowers.
- **Mess baking/ Pretend baking** – give your toddler his own set of containers with ingredients (e.g. flour, rice crispies, oats, cocoa, oats etc) and a large mixing bowl. Give them complete freedom to mix away as they wish!
- **Drawing on outside paving** with chalk
- **Hard boiled eggs done in food colouring** – hide in garden for egg hunt
- **Potato cut out painting**
- **Paint rocks/ pebbles** – can be used in garden or given as a present (paper weight!)
- **Make hat/ crown** out of cardboard and decorate with stickers/ crayons/ flowers etc
- **Decorating:** Pre-bake a cake/ biscuits and allow them to decorate with icing and accessories
- **Flower arranging:** put Styrofoam on polystyrene cups and stick in flowers and leaves from garden (great present for granny!)
- **Mr Fix It:** Give old screwdriver/ tools and get them to go around the house fixing things
- **Picture Treasure Hunt:** Cut out pictures from magazines – stick them around house. Send kids to find them e.g. can you find a picture of an apple
- **Crayon shaving pictures:** Sharpen crayons to make shavings, let them put shavings on paper. Put another piece of paper on top and iron under low heat top melt shavings and make picture
- **Hide and go seek**
- **Musical bumps/ statues**
- **Dancing** to music – use props – ribbons, ostrich feathers, scarves
- **Stamps** with ink pads
- **Fabric painting:** hand and foot prints with fabric paint on t-shirts, cushions etc
- **Singing along** to a cd or nursery rhymes - sometimes with actions
- **Art/crafts:** make fish using paper plates; bugs using egg boxes/toilet rolls/cardboard/wobbly eyes; rabbits or cats with cotton wool tails etc
- **Scavenger hunt:** find in or outside the house objects which have specific colours/shapes/sounds etc [e.g. find a red ball/something yellow (flower)/something brown (pine cone)/something to bang on (a drum)]
- Make a **collage** of things found in garden - feather/flowers/leaves
- **Necklace making:** beads/pasta/cotton reels etc onto string

# Indoor Activities @home continued...

- **Dice and blocks** - when kids can count the number of dots on a dice and then build that many blocks into a tower - take turns and see how high your tower goes before falling down
- **Glue hands:** Collect some sand, cover hands in glue, print on paper then sprinkle with sand. Can also do dots etc and shapes on hands with glue
- **Dress the toddler:** Draw toddler shape of whole body on newsprint/glue newspapers together. (Get your child to lay down on it and draw around their body) Then draw/cut/paste clothes from fabric/paper etc onto body
- **Theme days:** Have a shape or colour theme for the day and draw, colour, and cut etc different colours and shapes. Choose one shape or colour per day.
- **Glue patterns:** draw patterns of glue onto paper and then sprinkle with glitter/sand etc.
- **Paper Fun:** Tear bits of different colour and texture paper, dip in wood glue and stick onto a page. Can paint or colour this in after.
- **Stickers** – hours of fun! Also look out for books with re-usable stickers (e.g. The Crazy Store has some great ones where you add eyes, noses and lips to faces)
- **Make a tree:** Collect leaves, draw a tree trunk, glue leaves onto tree to make a tree
- **Water fun:** On a tiled floor, give them a table with a towel on it (helps absorb excess mess), some cups & spoons and water with food colouring in...messy but great fun!
- **Making a worm** to count number of days ... e.g. when daddy was away we made a worm and each night before we went to bed we took one piece off the worm, until the last day when daddy was due back - which was the worm's smiling face
- **Being a 'big helper'** - getting your toddler to fetch nappies or baby wipes, throw away dirty ones, or take cups or dishes to the sink - they usually love helping - and it keeps them out of any other mischief
- **"Plays" or switching roles** - where the toddler gets to be the mom / dad - allows us to see how she perceives us J
- **Treat Days** - in our house - Saturday is Ice-cream day!
- **Reading** is always fun. It's so worth it to join your local library to keep up with your little one's appetite for books. This is a great rainy day activity.
- **Paper plate choices:** divide up a paper plate into 5 or so sections. On each section draw/ find a picture to represent an activity (e.g. a book for reading, paintbrush for painting, Barney for dvd). Create a spinning hand/ arrow. Spin the arrow to determine which activity you will do.
- **Picture album** – create a unique, personalised album of pictures. Use magazines, clipart, photos etc. Place in flip file or bind laminated pages together. Great conversation starter (e.g. where is the picture of the lady talking on the phone? Which is your favourite animal? Can you find the red ball?)

## Fishy Egg Recipe (AKA Kedgerree)

*The "Fishy Egg" has not been patented (yet!) so you are MOST welcome to the recipe. It's not something you can rustle up in 5 minutes, you need a bit of time, but it is very very easy to make and it has lots of good stuff in it and is delicious for parents and kids so a great family meal (left-overs can be frozen in kiddie portions). It's a family favourite that I used to have when I was a kid so I kind of make it out of my head, but here is the gist of it:*

### WHAT YOU NEED:

- 500g packet of smoked deboned frozen Haddock
- ± 4 eggs
- ± 4 carrots (peeled and thinly sliced)
- ± 2 cups frozen peas
- ± 4 tomatoes thinly slices (for on top, optional)
- ± 1 cup rice
- White (cheese) sauce (I usually make my own, but you can add a readymade one like a bottle of Ina Paarman Cheesy sauce if you're rushing): marg, flour, cheddar, milk, herbs
- Big casserole/oven dish to mix in!

### HOW TO:

- Put oven on to about 180 deg.
- Place the frozen fish in a frying pan with enough milk to cover and cook till defrosted, soft and fragrant
- Once cooked, lift fish out of the pan (keeping the milk remaining), break up and chuck into a big casserole dish.
- Cook frozen peas (in micro is easiest) drain and add to casserole dish
- Cook carrots (in micro is easiest) drain and add to casserole dish
- Cook rice, drain, rinse in cold water, drain and add to casserole dish
- Hard boil eggs, take shells off, chop up and add to casserole dish
- Add white sauce to dish, mix well.
- Place tomato slices on top
- Sprinkle cheddar cheese on top.
- Place casserole dish in oven for about half an hour (to warm through and till cheese is melted or grilled nicely)

### HOW TO for white sauce: (very unscientific, I just guess quantities).

- Melt about 150g block marg in a pot over a low heat
- Slowly add enough flour to make the mixture into a dry paste type consistency
- Add about a cup or so of grated cheddar cheese (and a bit of mustard if you like)
- Add some mixed herbs, and salt and pepper if you want (to your taste)
- Slowly add the milk from the fish-pan (gives it a nice flavour)
- Slowly add more milk until the mixture turns into a nice sauce
- Cook for a little while until the sauce thickens.
